### **Stratabound Hits Excellent Intersection at Elmtree Gold**

**Stratabound Minerals Corp.** is pleased to announce assay results from the fifth and sixth holes in its drill program on the Elmtree Gold Property twenty kilometres northwest of the coastal city of Bathurst, New Brunswick.

<b>Drill Hole</b>	<b>From (Metres)</b>	<b>To (Metres)</b>	<b>Width (Metres)</b>	<b>Gold Grade (g/t)</b>
<b>05-05</b>	89.0	89.5	0.5	0.81
	105.0	112.6	7.6	1.08
including	111.6	112.6	1.0	2.20
<b>05-06</b>	21.0	55.7	<b>34.7</b>	<b>2.12</b>
including	21.5	23.0	1.5	3.19
and	25.3	26.9	1.6	3.23
and	30.5	33.0	2.5	4.07
and	36.0	42.6	6.6	3.35
including	41.5	42.6	1.1	6.00
and	48.5	49.7	1.2	6.84

DH 05-05: Collar location E284986.71/N5294275.32; Azimuth 339; Dip -43  
 DH 05-06: Collar location E285157.91/N5294430.47; Azimuth 345; Dip -45

Hole 05-05 was drilled 45 metres west of Hole 05-04 to test for lateral continuity of the mineralized gabbro. It intersected the targeted gabbro at vertical depths of 60 to 85 metres below surface. This intersection expands the known extent of the gabbro-hosted gold-mineralized system downdip from any previous drilling at its west end, and opens the zone for additional drilling both to the west and at depth.

Hole 05-06 was drilled about 230 metres (750 feet) along strike east of Hole 05-05. Gold distribution is remarkably consistent along a 34.7 metre mineralized interval which includes 9.9 metres of footwall sediments and 24.8 metres of gabbro. This latest hole tests potential open pit mineralization at vertical depths of about 15 to 40 metres below surface, halfway between trenches 04-07 (21.0 m. grading 2.97 g/t gold, including 10.5 m. of 5.26 g/t) and 04-08 (28.7 m. grading 1.68 g/t, including 16.5 m. of 2.73 g/t).

Results of the first four drill holes and recent trenching, as well as historical project information, can be found on the Company's website, [www.stratabound.com](http://www.stratabound.com).

Assays were done at ALS Chemex of Mississauga, Ontario. John Duncan, P.Geo. and Stan Stricker, P.Geol. are Qualified Persons on this project as defined in National Instrument 43-101.
