[Stratabound announces production loan facility for CNE and expanded gravity survey on Commander](#)

Calgary, November 21, 2012 - Stratabound Minerals Corp. (TSX.V:SB) announces that it has entered into an unsecured loan facility with a private company controlled by its largest shareholder. Up to \$1,400,000 is available to the Company to assist primarily in the development of its CNE zinc-silver-lead deposit near Bathurst, New Brunswick. While the Company is still awaiting final permitting, some pre-development work has already been undertaken.

The loan carries interest at 6% and is repayable on June 30, 2013, subject to being repaid earlier out of the proceeds from the mine operations. The Company will, subject to regulatory approval, issue 2,000,000 warrants as additional consideration. Each warrant is exercisable at \$0.20 for a period of 3 years.

A gravity survey is underway on the optioned Commander property which adjoins the north boundary of Stratabound's CNE/Captain claim groups. This survey will extend the gravity coverage southward along strike for 900 metres beyond a recently drilled hole that assayed 2.0% copper, 0.5 g/t gold and 7.5 g/t silver along a core length of 11.0 metres (news release dated November 1, 2012).

The technical information contained in this release has been reviewed by John Duncan, P.Geo. and Stan Stricker, P.Geol., Qualified Persons as defined in National Instrument 43-101.
